■ Non-wicking *Weldable Webbing* is tightly woven polyester (PET) webbing fully coated and impregnated with thermoplastic vinyl (PVC). Proven in the European curtainside trailer industry, it is now widely accepted in the North American fabric structure, tent, tarp, sign, and banner industries.

■ Louis A. Green Corp. maintains a stock of standard weight PVC weldable webs ready for shipment. Additional weights and colors are available as special order items.

<i>Stock Types</i>
